

## Criteria I: 1.4.1: Feedback by Alumni on the College, 2019-20

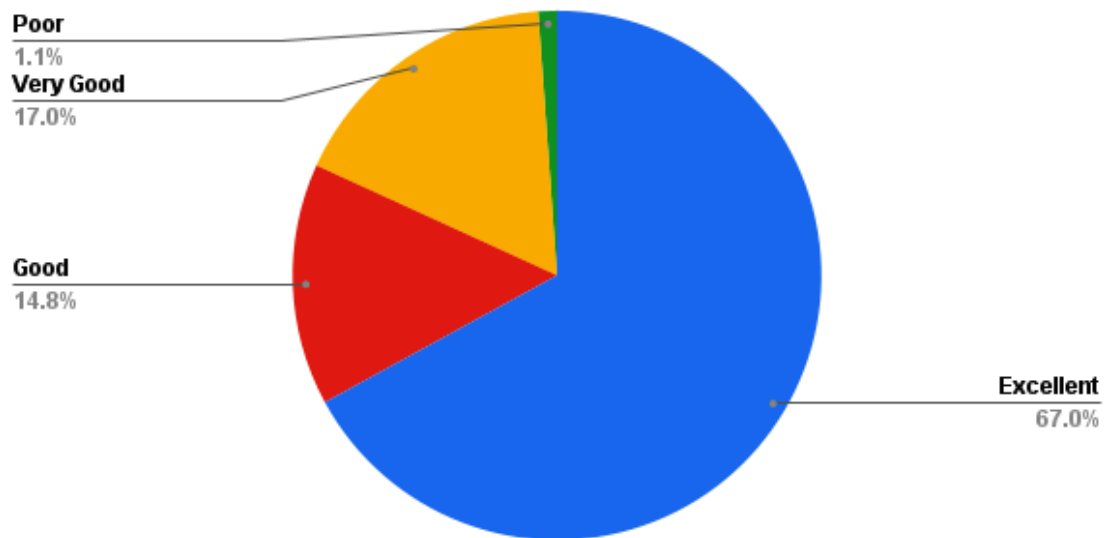

Count of Present Occupation / Designation:

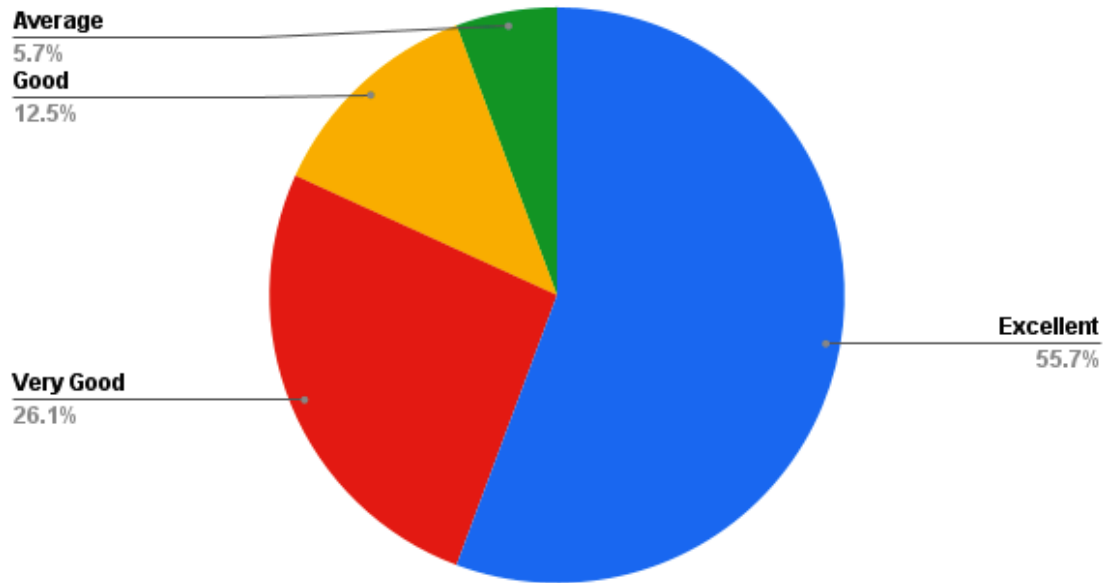

### Count of Name of the Stream of your course:

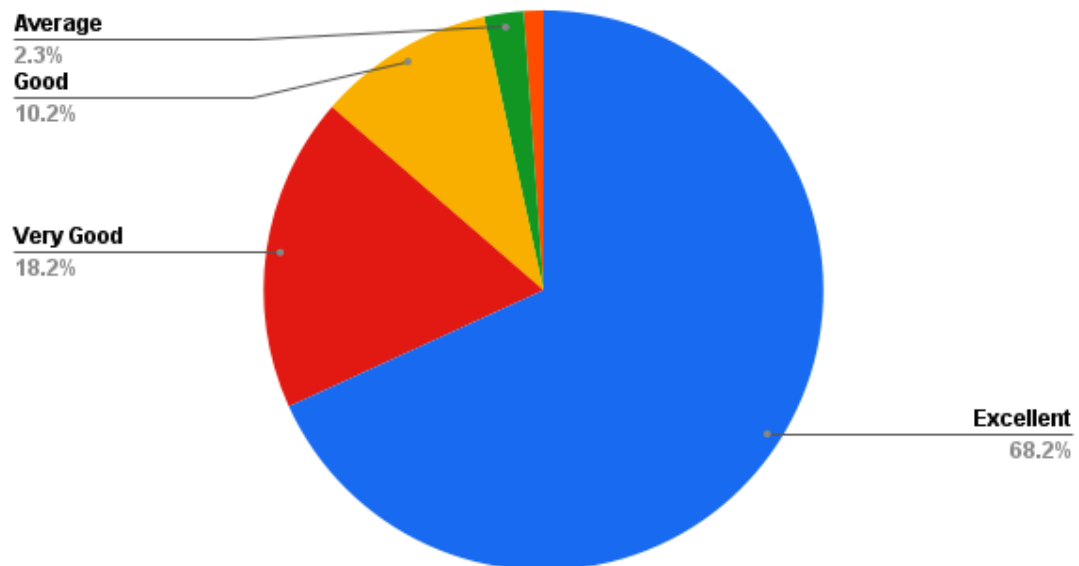

### COURSES THAT YOU HAVE LEARNT IN THE COLLEGE IN RELATION TO YOUR CURRENT OCCUPATION

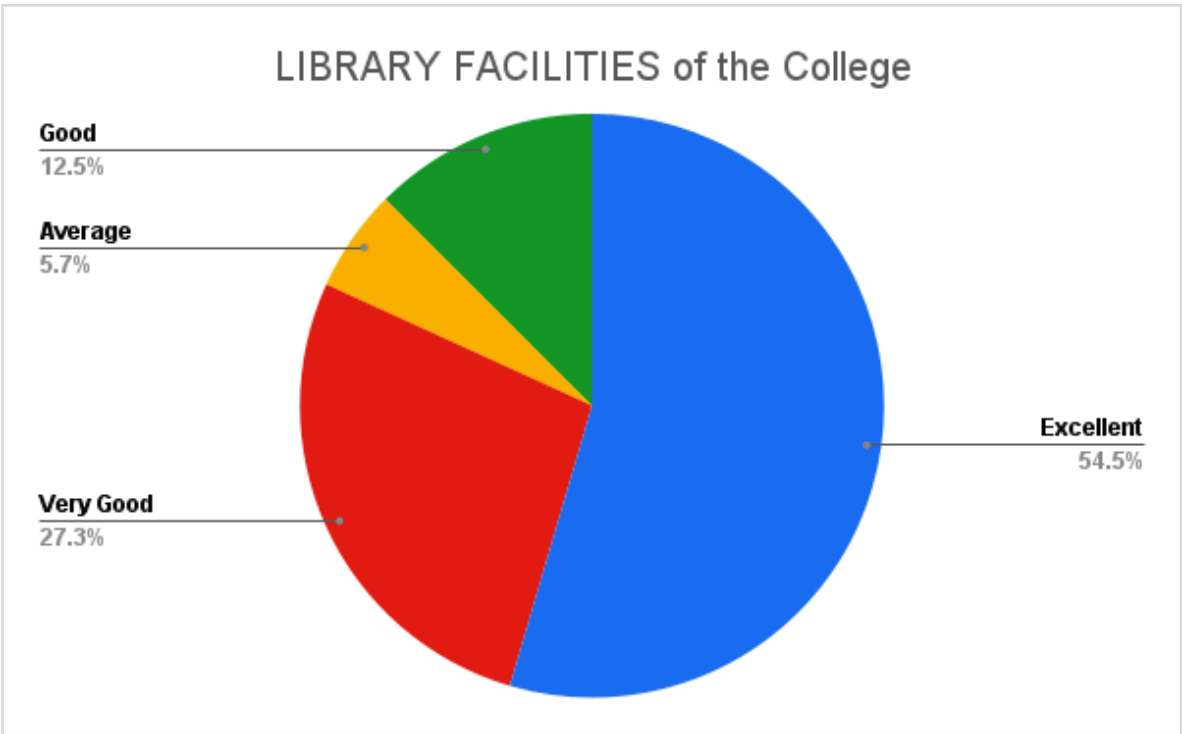

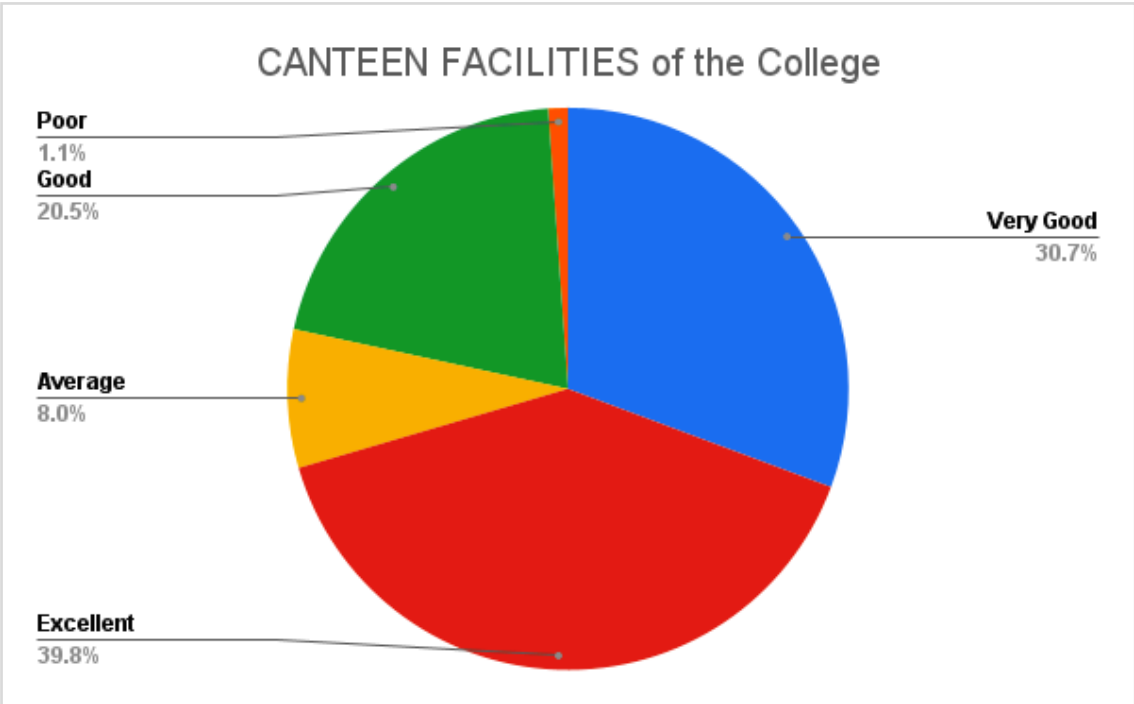

## INFRASTRUCTURE and LAB FACILITIES of the College

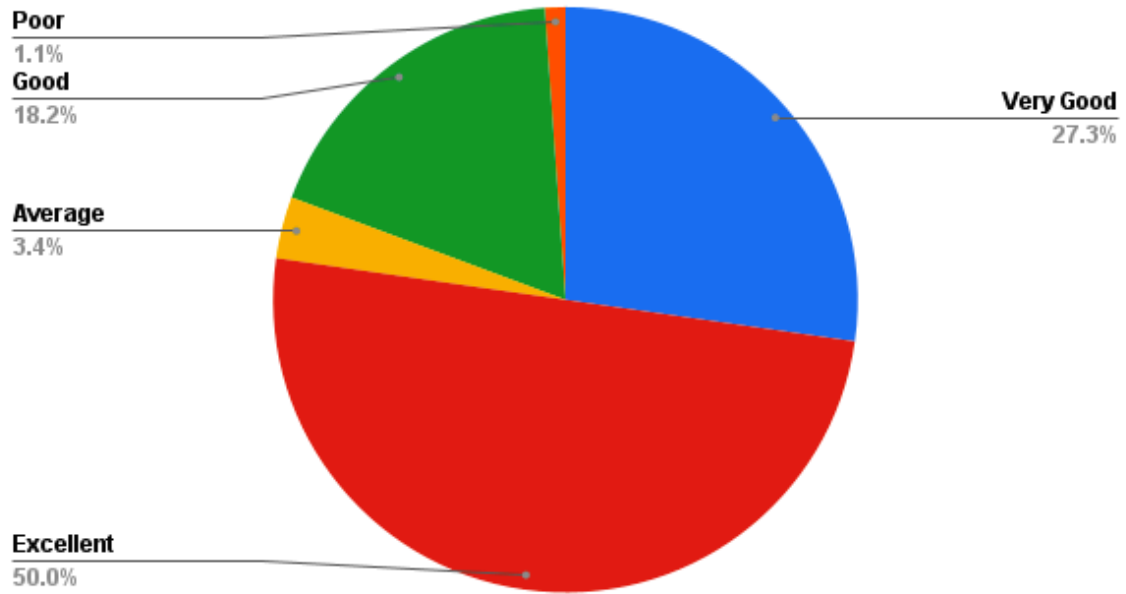

## FACULTY STRENGTH of the College

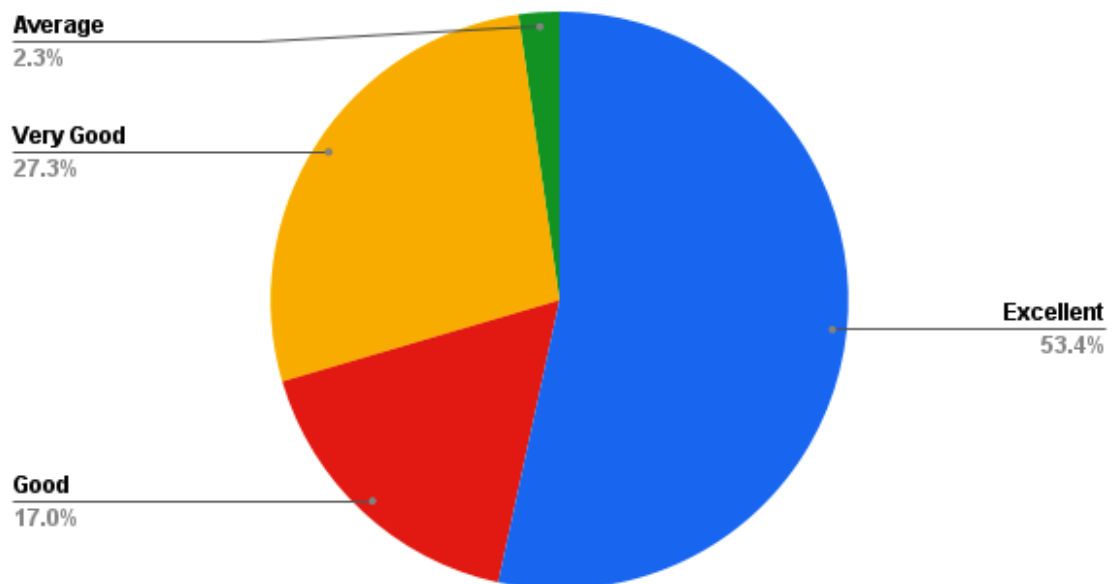

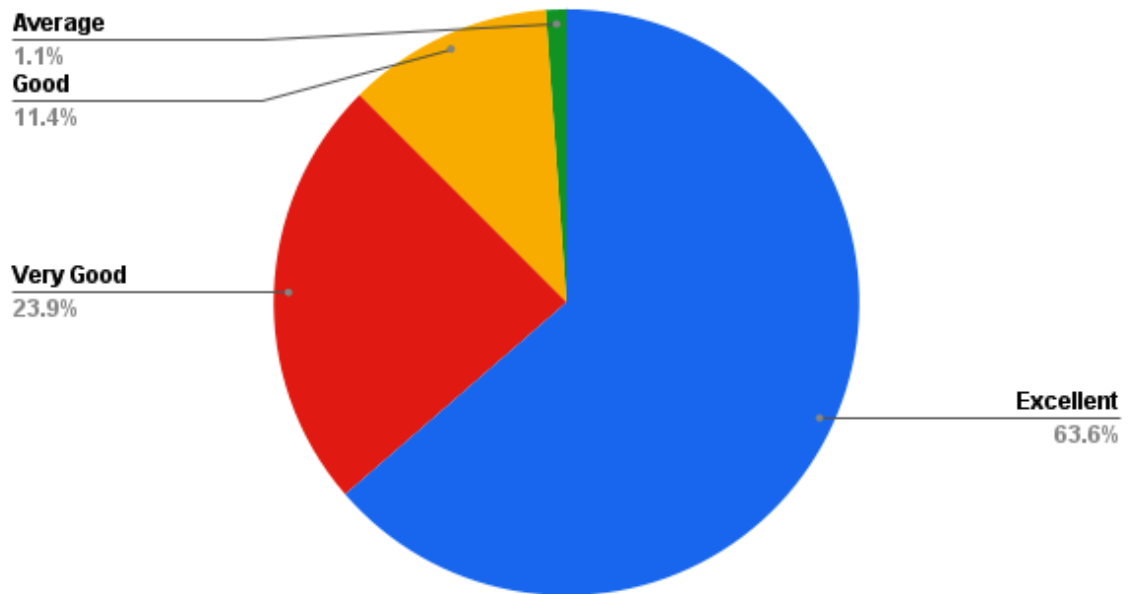

### SERVICES OF THE OFFICE STAFF of the College

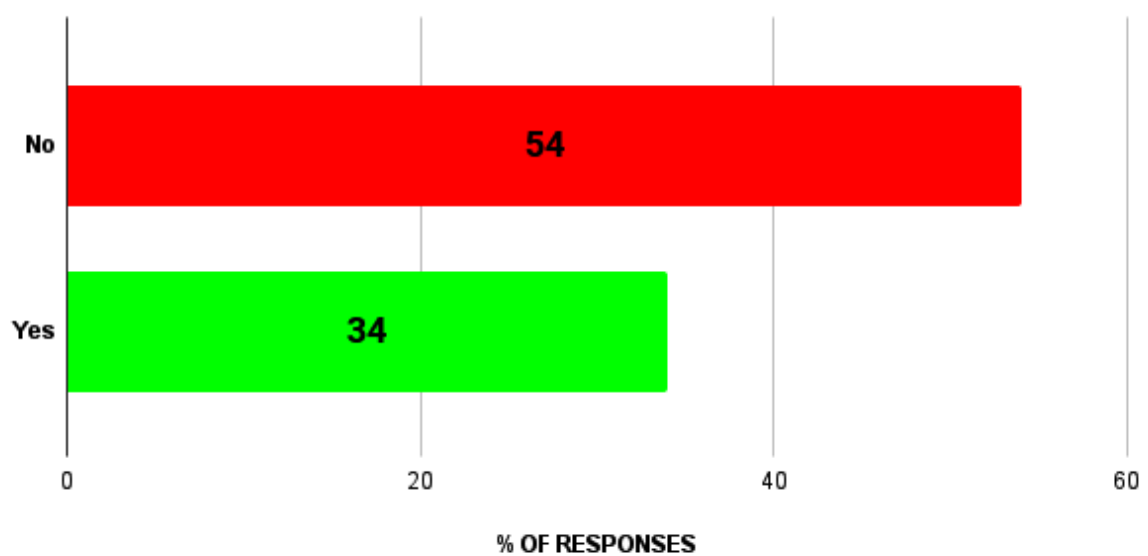

### ADMISSION PROCEDURES of the College

## OVERALL RATING OF THE COLLEGE

## ARE YOU A MEMBER OF TDB COLLEGE ALUMNI ASSOCIATION

### **Comments/ Suggestions by the Alumni**

Interactive sessions with professionals, and development of entrepreneur cell.

Nice college to learn as the teachers and the non-teaching staffs are cordial and creates an atmosphere to learn.

Need to form core group with alumni members who are now posted in India and abroad so that any kind of development may be discussed and regulate the procedure

Great going. Good luck

Waiting to visit college again.

I would like to convey my warm regards to our all Professors, respect to all the staffs with a wish to have got together after the pandemic situation.

Arrange reunion in college campus

I feel very proud to be an ex student of TDB college which not only gave me an opportunity to build up my career as an Environmental Scientist working in a Government Department but helped me to become a complete man with outstanding contribution of my honourable teachers and other supporting staff of my beloved college. Even being at a distance of 1500 km, I always remember my teachers and the great building which enable me to achieve a milestone of my life. I wish the coming generations will also available the similar facilities of acquiring knowledge and wisdom as we had in our time, may be with better infrastructure and great academician and teachers.

Earnest appeal for reunion.

Please do the needful to enrol me to the Alumni

Request to conduct Alumni get together for Mathematics. Only once we had during our study years.

Please arrange re union, we did it first time in 1988.Please take necessary steps.

Great to be there and enjoyed life.

No comment.

I want to be member of alumni association

Need to increase faculty strength, already those remaining are overburdened.

Very good

Request to invite for program to conduct sessions as per the competency of the member. Also add where and in which position the alumni/ alumnus is working at present.

First of all, more development of the lab facilities in the college is required because lots of instrument are old and not functional at time of practical.. Secondly, college canteen must be developed more because sitting arrangement is not sufficient for student. Variety types of food is not available..etc

The alumni association should me more strong and active

Fabulous experience as a student of this glorious college.

Good faculties, good atmosphere, overall good

Spent a good time of 3 years

Very good...

My college is best college

Lack of coordination between student, teacher and administration, documentation is good but proper execution of learning outcome merely found, huge books are there in library, many committees are there. Continuous assessment is now in curriculum... Various activities are found from students throughout the year, institute has tie up with professional body to train our students for job/all India exam, a bank is there to serve the college, a computer centre is also functional for additional degree, faculty improvement program is very good, induction program of student and faculty members before start of a new session is very essential and it may include about details of course curriculum - LOCF/CBCS, CGPA, SGPA, credit pattern, assessment, backlog, exam pattern, etc.

Please add me to Alumni group, TDB college.

I will be very happy if the college authority initiates to start the B. Sc. Honours course in Environmental Science in near future

I miss my college days...That was memorable for me and I am really thankful to my Respected teachers for providing me a good quality teaching...Thank you.

My experience is nice when I read in this college.

Good, started M.Phil programme in Urdu, very good initiative

Infrastructure of the zoology laboratory needs to be improved.
